Regulation 121A

Norwich City Council Community Infrastructure Levy (CIL) Annual Infrastructure Funding Statement (IFS) for 1 April 2023 to 31 March 2024

Schedule 2 Regulation 121A, paragraph 1 (b) of The Community Infrastructure Levy Regulations 2010 (as amended) requires a “contribution receiving authority” (Norwich City Council) to prepare a report in relation to the previous financial year which includes the matters specified in paragraph 1 of Schedule 2. A contribution receiving authority is defined as any charging authority which issues a liability notice during the reported year.

The three planning authorities of Norwich City, Broadland and South Norfolk District Councils have a unique partnership arrangement to manage the re-allocation of their Community Infrastructure Levy (CIL) income. Once the amount for neighborhood CIL and an administration fee is deducted, the remaining balance is transferred to a ‘shared pool’ called the Infrastructure Investment Fund (IIF). Together with Norfolk County Council, the four partners oversee the delivery of a joint Greater Norwich growth programme of projects under the direction of the Greater Norwich Growth Board (GNGB).

Since the establishment of the GNGB in 2014, the partnership has allocated over £46m of IIF funding and £54.5m of CIL supported borrowing which has levered in at least an additional £305m to deliver infrastructure projects within the Greater Norwich area.

The GNGB’s partnership working practices, and particularly the pooling arrangements of CIL contributions within the IIF, are considered an ‘exemplar model of working’ by the Planning Advisory Service (PAS). They have also cited the GNGB as a partnership who are pursuing ambitious growth agendas under strong strategic leadership and cross boundary collaboration.

The GNGB have published their project-specific IIF allocations through their joint Five Year Infrastructure Investment Plan on an annual basis since 2016, which is before it became a legislative requirement to publish this information within an Infrastructure Funding Statement (IFS). Unfortunately, Greater Norwich’s unique CIL pooling arrangements does not concur with a requirement to report CIL allocations on a District specific basis, because their partnership approach delivers infrastructure cross boundaries. Therefore, all CIL re-allocation information required within an IFS continues to be publicly reported within the [GNGB’s Five Year Infrastructure Investment Plan](#). Plus, a [new interactive digital version of the data can be found here](#).

The Greater Norwich authorities also report their CIL income and allocations within each [Annual Monitoring Report](#).

Allocations from the IIF are currently restricted to the four infrastructure thematic groups as agreed within the Greater Norwich adopted CIL charging policy. These are Transport, Education, Green Infrastructure and Community (which includes sports). When CIL was initially adopted, local authorities were required to report a Regulation 123 list confirming the infrastructure thematic groups which were considered within their CIL

charging calculations and therefore the groups to which CIL can be reallocated to. The need for this list was withdrawn by legislation from September 2019, but this does not automatically allow other groups to apply to the IIF because the Greater Norwich authorities are still adhering to their locally adopted CIL charging policy. The GNGB understand the funding pressures that other infrastructure thematic groups are experiencing and were planning to undertake a review of CIL alongside the development of the Greater Norwich Local Plan. However, this was put on hold following the publication of the Planning For The Future - White Paper in August 2020, which proposed the cessation of CIL in favour of a new Infrastructure Levy (IL). This change was reconfirmed over subsequent years and a framework for its implementation was included within the Levelling up and Regeneration Act.

More recently, the new Labour governments consultation on the National Planning Policy Framework (Sept 2024) made it clear that it will not be implementing the new IL, but the Government are yet to release any further details. The Greater Norwich partners will work together to carefully consider the timing and approach for conducting a CIL review, but until this is complete the GNGB are required to proceed with their existing adopted CIL charging policy.
