**Food Premises Inspection Report**

Name of business:	Good Frydays
Address of food business:	Chip Stop 474 Sprowston Road Norwich NR3 4DY
Date of inspection:	16/07/2024
Risk rating reference:	24/00288/FOOD
Premises reference:	15190/0474/0/000
Type of premises:	Food take away premises
Areas inspected:	Main Kitchen, Storeroom, Servery
Records examined:	Training Certificates/records, SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Fish and chips takeaway

**Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
<b>Your Total score</b>	0 - 15	20	<b>25 - 30</b>	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	10	<b>10</b>	15	20	-
<b>Your Rating is</b>	5	4	<b>3</b>	2	1	0

Your Food Hygiene Rating is 3 - a generally satisfactory standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Observation** I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

#### Hand-washing

**Observation** I was pleased to see handwashing was well managed.

#### Personal Hygiene

**Contravention** The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- food handlers were wearing nail varnish
- staff were not wearing suitable protective clothing

**Legal Requirement** All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing.

**Guidance** Regular hand washing is important for personal cleanliness. Remind all food handlers of the need to wash their hands before starting or returning to work, and specifically:

- \* After using the toilet;
- \* After handling rubbish;
- \* After smoking;
- \* After taking a break;
- \* After handling raw food

### Temperature Control

**Observation** I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- flooring behind and under equipment
- floor/wall junctions
- bottom to wall
- skirting boards
- pipework
- area where potatoes are prepared
- flooring under servery

- skirting boards in servery
- door to servery
- electric sockets and light switches

**Contravention** The following structural items could not be effectively cleaned and must be covered or made non-absorbent:

- untreated wooden shelving in servery

**Information** Covering surfaces with aluminium foil leads to a potential contamination risk as the foil breaks up into smaller shards

### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned:

- build-up of ice to chest freezer
- around interior top to chest freezer
- seals to fridges/freezers
- food storage containers
- door to fridge
- interior to microwave
- wall tiles damaged and missing

### Cleaning Chemicals / Materials / Equipment and Methods

**Observation** I was pleased to see that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

- tiles to floor
- damage to flooring in servery
- food mixer
- area around where potatoes are prepared
- damage to wall

### Pest Control

**Observation** I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

### **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

#### **Type of Food Safety Management System Required**

**Observation** You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

**Observation** Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

**Observation** You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

#### **Proving Your Arrangements are Working Well**

**Contravention** The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- cleaning schedule

**Contravention** You are not working to your Safer Food Better Business

- it states in your pack that aprons are worn

#### **Traceability**

**Observation** Your records were such that food could easily be traced back to its supplier.

#### **Infection Control / Sickness / Exclusion Policy**

**Observation** Policies were in place to prevent any infected food handler from contaminating food.

#### **Waste Food and other Refuse**

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

## Training

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

## Allergens

**Observation** You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

**Observation** You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
