

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	H S BBQ
Address of food business:	195 Drayton Road Norwich NR3 2PG
Date of inspection:	29/07/2024
Risk rating reference:	24/00312/FOOD
Premises reference:	20/00004/FD_HS
Type of premises:	Food take away premises
Areas inspected:	Main Kitchen, Servery
Records examined:	SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Kebabs/Burgers/Pizzas takeaway

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals.:

- scoops/containers were being stored in dried ingredients

Legal requirement At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state

Hand-washing

Observation I was pleased to see handwashing was well managed.

Temperature Control

Legal Requirement Food which has been cooked or reheated and is intended to be kept hot until it is sold, must either be held at or above 63°C or it can be kept for service or on display for sale for a single period of less than 2 hours; at the end of the 2 hour period the food should be cooled as quickly as possible and kept at or below 8°C until it is sold or it should be discarded.

Legal requirement Where food is to be held or served at chilled temperatures it must be cooled as quickly as possible following the heat-processing stage, or final preparation stage if no heat process is applied, to a temperature which does not result in a risk to health.

Guidance Where unsatisfactory temperatures are observed checks then should be made with a probe thermometer to see the actual temperature of the interior of the food.

Recommendation The core temperature of cooked and reheated foods should reach 75°C for 30 seconds or an equivalent time and temperature combination.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- around equipment feet
- flooring behind and under equipment
- drain and surrounding area to room where walk-in freezer is housed
- window sill to servery

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- seals to fridges
- wheels to equipment

Cleaning Chemicals / Materials / Equipment and Methods

Information You must ensure that the sanitisers you use are effective against bacteria. Ensure that they meet the following standards BS EN 1276:1997 and 13697:2001.

Maintenance

Contravention The following items had not been suitably maintained and must be repaired (or replaced):

- split seals to upright fridge

Pest Control

Observation You have a pest control contract in place and there is no evidence of pest activity on the premises.

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Proving Your Arrangements are Working Well

Contravention You are not working to the following safe methods in your SFBB pack:

- cleaning schedule

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Guidance UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Recommendation A Level 2 Award in Food Safety in Catering or its equivalent (a 6-hour course leading to the award of a recognised certificate in food hygiene) would be appropriate for your food handlers. Booking details for the equivalent CIEH course are on our website: www.norwich.gov.uk

Recommendation A Level 3 Award for Supervising Food Safety in Catering would be appropriate for your supervisory staff and those with managerial responsibility.

Recommendation Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

Contravention You are failing to manage the risk from allergens properly:

- you are not informing customers of allergens present in your pre-packed for direct sale (PPDS) food i.e garlic mayonnaise (egg/mustard) in your take away pots

Legal requirement The allergen labelling requirements for prepacked for direct sale (PPDS) food have changed. Any business that produces PPDS food is required to label the food and the ingredients list with the 14 allergens required to be declared by law emphasised within it

Recommendation for information or advice about prepacked food for direct sale (PPDS) contact Norfolk Trading Standards on 0344 800 8020 or email : trading.standards@norfolk.gov.uk

Information Prepacked for direct sale (PPDS) food, is food that is packaged at the same place it is offered or sold to consumers, and is in this packaging before it is ordered or selected by your customers. The new PPDS allergen labelling will help protect consumers by providing potentially life-saving allergen information on the packaging

Information Prepacked for direct sale (PPDS) food can include the following:

- sandwiches and bakery products which are packed on site before a consumer selects or orders them
- fast food packed before it is ordered, where the food cannot be altered without opening the packaging
- products which are prepackaged on site ready for sale, such as pizzas, rotisserie chicken, salad and pasta pots
- burgers and sausages prepackaged by a butcher on the premises ready for sale to consumers
- food provided in schools, care homes or hospitals and other similar sittings will also require labelling
- pots served with takeaways such as garlic mayonnaise (egg, mustard), houmous (sesame), coleslaw (egg, mustard) mint yoghurt (milk), soy sauce (soy)

Information food which is not prepacked for direct sale (PPDS) is any food that is not in packaging or is packaged after being ordered by the consumer. These are types of non-prepacked food and do not require a label with name, ingredients and allergens emphasised. Allergen information must still be provided but this can be done through other means, including orally

Information The Food Standards Agency run free allergen courses at <https://allergytraining.food.gov.uk>
