Food Premises Inspection Report

Name of business:	Ellacombe - Norse Care Limited
Address of food business:	Ellacombe Ella Road Norwich NR1 4BP
Date of inspection:	18/09/2024
Risk rating reference:	24/00382/FOOD
Premises reference:	24/00175/FD_HS
Type of premises:	Residential care home
Areas inspected:	Storeroom, Main Kitchen
Records examined:	FSMS, Training Certificates/records, Temperature Control Records, Cleaning Schedule
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Residential care home

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals.:

- green cutting board was badly scored and needs replacing
- scoops stored in dried ingredients

Legal requirement At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- 2 x loaves brown bread were being stored beyond their 'Best before' date of 17/9

Guidance It is an offence to use food which is not of the nature, substance or quality demanded by the consumer. Food used passed its 'best before' date could be of a reduced quality so you must check it is OK before you use it.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- flooring around equipment feet
- behind and under equipment
- floor/wall junctions
- pipework
- walls
- cobwebs seen to areas under equipment
- radiators
- window ledges
- fly screens
- recesses to tap heads
- blue tac to walls

Contravention The following structural items could not be effectively cleaned and must be covered or made non-absorbent:

- exposed area(s) of bare and unfinished plaster on walls

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- legs to equipment
- wheels to equipment
- interior to microwave
- cling film dispenser
- around interior door to dishwasher
- frame to washing up sink
- interior to hot cupboard
- mop and bucket
- wooden equipment

Cleaning Chemicals / Materials / Equipment and Methods

Recommendation I recommend that items such as mops, buckets and brooms are stored in an area, room or cupboard separate from a food preparation or storage area so that the risk of food contamination is minimised

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- peeling paint to walls
- chipped paint to radiators
- chipped paint to wooden equipment

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

HEALTH, SAFETY AND WELFARE

Matters of Evident concern

Contravention The following matters were of immediate concern and must be rectified as soon as possible:

- the door leading into the kitchen is a fire door and was wedged open. Remove the wedge so the door closes fully against the door stops. When closed, fire doors contain the spread of fire and ensure escape routes are kept free of smoke and flame.
