**Food Premises Inspection Report**

Name of business:	The Best Kebab And Pizza
Address of food business:	69 - 71 Prince Of Wales Road Norwich NR1 1DG
Date of inspection:	06/03/2025
Risk rating reference:	25/00223/FOOD
Premises reference:	13330/0069/0/000
Type of premises:	Food take away premises
Areas inspected:	Main Kitchen, Storeroom
Records examined:	SFBB, Cleaning Schedule
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Kebab and Pizza Restaurant/Take away

**Relevant Legislation**

Food Safety Act 1990 (as amended)  
 Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)  
 Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013  
 Health and Safety at Work etc. Act 1974 and related regulations  
 Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	<b>10</b>	15	20	25
Structure and Cleaning	<b>0</b>	5	10	15	20	25
Confidence in management & control systems	0	5	<b>10</b>	15	20	30
<b>Your Total score</b>	0 - 15	<b>20</b>	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	<b>10</b>	10	15	20	-
<b>Your Rating is</b>	5	<b>4</b>	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are generally satisfactory and maintained. There is evidence of some non-compliance with legal requirements. Some lapses are evident however generally you have satisfactory food handling practices and procedures and adequate control measures to prevent cross-contamination are in place. The contraventions require your attention; although not critical to food safety they may become so if not addressed.  
**(Score 10)**

#### Contamination risks

**Contravention** The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- the same containers were being used for raw and ready-to-eat foods i.e chicken and prepared lettuce
- cutting boards were badly scored and need replacing
- badly worn scourer
- badly worn nailbrush
- scoops stored in dried ingredients
- same coloured knives used for preparing raw and ready-to-eat foods

**Contravention** You could not demonstrate effective heat disinfection of the food equipment and utensils you use for handling both raw and ready-to-eat foods:

- knives
- storage containers
- you do not have a dishwasher and you are not using an adequate heat disinfection step after washing up equipment and utensils

**Contravention** You had not protected the articles and/or the equipment you use for ready-to-eat food from the contamination risk posed by raw food or its packaging.

- shared containers (containers used for both raw and RTE food) are not adequately disinfected – through the application of sufficient heat or sanitising chemicals – to ensure harmful bacteria are killed

**Legal Requirement** At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

**Guidance** The FSA (visit [www.food.gov.uk](http://www.food.gov.uk) for more information) has issued guidance on controlling E.coli 0157 through:

- the complete separation of raw and ready-to-eat food
- the correct use of wash-hand basins and thorough hand washing
- having dedicated equipment (including complex equipment) for raw and ready-to-eat foods
- thorough 2-stage cleaning and the correct use of sanitisers
- and by controlling the risks posed by soily vegetables.

**Guidance** If equipment and utensils (for example chopping boards, containers and tongs) are to be used for raw and RTE foods, they should be disinfected by heat or an adequate dishwasher cycle (able to reach 82°C for 15 seconds) between uses.

**Recommendation** Provide separate equipment and utensils designated for use with either raw or ready-to-eat foods, which can be easily identified (e.g. colour coded) and stored and washed separately.

### Hand washing

**Observation** I was pleased to see hand washing was well managed.

### Personal Hygiene

**Observation** I was pleased to see that standards of personal hygiene were high.

### Temperature Control

**Observation** I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all excellent and you demonstrated full compliance with the law. There is evidence of effective pest control and procedures are in place to rectify any problems as they arise. There is good provision for waste disposal. **(Score 0)**

### **Cleaning of Structure**

**Observation** The kitchen had been well maintained and the standard of cleaning was good.

### **Cleaning Chemicals / Materials / Equipment and Methods**

**Observation** I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

### **Maintenance**

**Observation** You are maintaining the premises in good condition.

### **Facilities and Structural provision**

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

### **Pest Control**

**Observation** I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

## **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### **Type of Food Safety Management System Required**

**Recommendation** I was pleased to see that you were using Safer Food Better Business. However your SFBB pack is very old and needs replacing/updating

### **Food Hazard Identification and Control**

**Contravention** You have not identified these food hazards or the methods of control at critical points in your operation:

- cross-contamination

## Proving Your Arrangements are Working Well

**Contravention** The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- cleaning schedule

## Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

## Infection Control / Sickness / Exclusion Policy

**Guidance** UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

**Observation** Policies were in place to prevent any infected food handler from contaminating food.

## Waste Food and other Refuse

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

## Training

**Contravention** The following evidence indicates there is a staff training need as food handlers:

- did not appreciate allergen risks
- were using poor cross contamination practices

## Allergens

**Contravention** You are failing to manage allergens properly:

- you are not informing customers about the risk of cross contamination with allergens
- you do not have a system for informing customers about the presence of allergens in the food you prepare
- you have not identified the allergens present in the food you prepare
- staff had not been properly informed about the allergens in your food and could not give reliable advice

**Legal requirement** Caterers must provide allergy information on all un-packaged food they sell. Catering businesses include restaurants, take away's, deli counters, bakeries and sandwich bars etc. The potential for cross-contamination by allergens must also be made known to consumers. You can obtain more information from the Trading Standards website: [www.norfolk.gov.uk/abc](http://www.norfolk.gov.uk/abc)

**Information** The Food Standards Agency has produced a chart that you may find useful [www.food.gov.uk/sites/default/files/media/document/allergen-chart.pdf](http://www.food.gov.uk/sites/default/files/media/document/allergen-chart.pdf)

**Information** The Food Information Regulations require that you know what allergens are in the food you provide. You can no longer claim you don't know what allergens are present. Neither can you simply state that all the foods you serve might contain an allergen. Be sure you know exactly what your allergens are Convey this information to your customers accurately and consistently
